SAFETY INSTRUCTIONS

1. Battery type: Coin cell battery — CR2032, 3V
2. Batteries are to be inserted with the correct polarity.
3. Non-rechargeable batteries are not to be recharged.
4. Different types of batteries or new and used batteries are not to be mixed.
5. Exhausted batteries are to be removed from the toy.
6. The supply terminals are not to be short-circuited.
7. The instruction manual has to be kept since it contains important information.

WARNING:

WARNING — Contains coin battery. Hazardous if swallowed.
A swallowed button or coin battery can cause serious internal burns within 2 hours and may cause death.
Keep new and used batteries away from children. If a battery is swallowed or placed inside the body, get medical help immediately.
Dispose of used batteries immediately.
